

Application guidelines for approval of cleaning and disinfection places for vehicles, which have been in contact with cloven-hoofed animals etc.

Executive Order No 772 of 29 August 2001 on approval of cleaning and disinfection places for vehicles, which have been in contact with cloven-hoofed animals etc. includes requirements on the layout and operation of cleaning and disinfection places, as well as a requirement to apply for approval.

An application for approval should be sent to the regional veterinary and food administration control centre and should contain a detailed plan and description of the facility.

The following conditions must be met:

1. Dedicated equipment for cleaning and disinfection of vehicles
2. Physical barriers should be put in place when several vehicles are cleaned and disinfected at the same time.
3. There should be suitable wastewater plants.
4. Solid surface beneath the entire area.
5. Facilities for storing manure and bedding.
6. An agreement in place on the disposal of manure.
7. Hot and cold water in sufficient quantities.
8. Disinfectants in sufficient quantities at all times.
9. Facilities to enable the personnel to issue documentation verifying cleaning and disinfection.

The regional veterinary and food administration control centre should be notified of any change in ownership.

The enterprise have to be reapproved following significant construction-related or other layout changes.
